Twinsburg, OH 44087-0404

Dear Dennis:

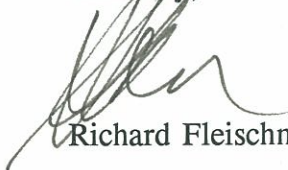

Congratulations to OAI!

Our project has been selected by *I'ARCA's* Committee on Architecture to be exhibited at MDO '94 in Monte Carlo from November 6 to November 13. We understand that Ohio Aerospace Institute is one of 50 buildings in the world invited to this conference sponsored by his Highness Prince Rainier of Monaco. A representative from Ohio Aerospace Institute, Dr. Michael Salkind, President, and I will make the presentation.

We are requesting that those firms, organizations and individuals who have been involved in the development and construction of this world-class project participate in the underwriting of the fees associated with this presentation. We are requesting that you consider a \$500 contribution towards the costs associated with participation in this conference. Of course, your name will be acknowledged in the presentation itself and all PR associated with this endeavor (see enclosed).

I want to thank you for collaborating in creating a building that merits this international recognition.

Sincerely,

Richard Fleischman, FAIA
